Plasti Dip Smoke

Plasti Dip Smoke gives your chrome surface or any surface a SMOKEY new look!

Features & Benefits:

- **Peel it off of most surfaces when consumers want to take it off**
- **Easy to apply**
- **Resists moisture, acids abrasion, & corrosion**
- **Provides non skid, comfortable, controlled grip**
- **Remains flexible & stretchy**
- **Will not become brittle & crack in extreme temperatures**
- **Apply to anything that paint is applied to and more**

3 coats of Plasti Dip Smoke sprayed on a chrome motorcycle rim with 3 coats of black Plasti Dip in the center. 2 coats of Glossifier were sprayed over both the Plasti Dip Smoke and black Plasti Dip.

Applications:

- ***Chrome***
- ***Home Projects***
- ***Garage Projects***
- ***Motorcycle Rims***
- ***Arts & Crafts***
- ***Many More…***

Plasti Dip Smoke's color changes gradually as more coats are added. Each additional coat gives Plasti Dip Smoke a darker, deeper hue.

Plasti Dip Smoke is not recommended for use on vehicle windows, tail lights or headlights.
